Independent Auditors' Report

Allegiance Capital, LLC
50 Donald B. Dean Drive Suite 1
South Portland, ME 04106

We have audited the accompanying statements of financial condition of Allegiance Capital, LLC (a limited liability company) as of December 31, 2006 and 2005, and the related statements of income, changes in members' equity and cash flows for the years then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Allegiance Capital, LLC at December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the Computation of Net Capital Under Rule 15c3-1 of the Securities and Exchange Commission is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Allegiance Capital, LLC
NOTES TO FINANCIAL STATEMENTS
December 31, 2006 and 2005

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The Company is a broker-dealer registered with the Security and Exchange Commission (SEC) and the National Association of Security Dealers (NASD). The Company is a limited liability company organized in Maine.

Accounts Receivable

Bad debts are charged to operations in the year in which the account is determined uncollectible. If the reserve method of accounting for uncollectible accounts were used, it would not have a material effect on the financial statements.

Depreciation and Amortization

Property and equipment are stated at cost. Additions, renewals and betterments, unless of relatively minor amounts, are capitalized.

Depreciation is computed by using the method used for income tax purposes, which is an accelerated method over a statutory recovery period of seven years. If the straight-line basis using estimated useful lives were used, it would not have a material effect on the financial statements. Depreciation expense for the years ended December 31, 2006 and 2005 was \$-0-.

When property and equipment is sold or retired, the related cost and any accumulated depreciation is removed from the accounts and any gain or loss is included in operations.

Start-up costs are stated at cost. Amortization is computed on a straight-line basis over 60 months. Amortization expense for the years ended December 31, 2006 and 2005 was \$433 and \$1,038, respectively.

Income Taxes

The Company is treated as a partnership for income tax purposes. Under subchapter K of the Internal Revenue Code, each member is taxed separately on their distributive share of the Partnership's income whether or not that income is actually distributed.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts during the reporting period and at the date of the financial statements. Actual results could differ from those estimates.
